

AG-313 80/20 Soil Blend

AG Organics offers a variety of Blended Topsoil mixes for various planting conditions. Our 80/20 Soil Blend topsoil starts with a base of a fine screened sandy loam topsoil blended with a fully composted organic compost.

AG-313 80/20 Soil Blend are designed for use with new or existing planting such as, trees, shrubs and turf areas giving the nutrients and minerals needed to provide sustained plant health with less compaction.

PLANTING RECOMMENDATIONS:

Remove unfavorable existing soil and replace at depth needed.

INGREDIENTS:

80 % Sandy Loam Topsoil
20 % Fir Shavings
